### **SMMP Task Force: Proposed Desired Outcomes**

- Describe & provide context to current Sustainable Materials Management (SMM) in northwest Oregon
- List success stories and/or case studies of targeted examples of SMM to emulate in our region
- Capture and aggregate current and potential resources and opportunities to support and promote SMM activities for local governments
- Identify key findings as a foundation and lists of recommendations to advance regional SMM systems

### **SMMP Task Force: Subcommittees Outcomes - Questions to Answer**

Will discuss if this the right set of questions that subcommittees should answer for each potential recommendation.

- Environmental Health Pros/Cons
- Economic Pros/Cons
- Human Health & Equity Pros/Cons
- What do we need to consider?
- Why hasn't this been done already?
- Who needs to take action?
- What is the next step?
